

STUBBORN FIGHT
ON NOMINATIONSRepublican Senators Opposing
Confirmation.

CONTEST BEGINS ON HARRIS

Appointment of Georgia Man as Director of the Census to Succeed E. Dana Durand Precipitates Conflict. Opposition Maintains Important Positions Should Not Be Given Out as Political Reward.

Washington, May 14.—Senate Republicans began their first big fight on President Wilson's nominations when the appointment of W. J. Harris of Georgia as director of the census, succeeding E. Dana Durand, was taken up in executive session.

The Republicans forced roll call after roll call on a question of procedure and in support of tactics which the Democrats termed dilatory. Motions to put the nomination over until Friday and until next week were defeated and when the membership on both sides had dwindled to almost nothing adjournment was taken with the Harris nomination where it was when the doors were closed.

Republican leaders have served notice that they expect to keep up the fight against the confirmation of Harris until July 1 at least, when Mr. Durand has announced his intention to quit.

Under senate rules there is no question of their ability to filibuster to their heart's content.

The Republican fight centers largely on the contention that offices requiring technical knowledge or scientific attainments should not be given as political rewards, but that qualification and experience should be the only yard stick.

Mr. Harris was chairman of the Democratic state executive committee of Georgia in the last campaign and is known as an original Wilson man.

CRITICISES NEW TARIFF BILL

Congressman Esch Says It Will Injure Northwest.

La Crosse, Wis., May 14.—Pronouncing the Democratic tariff bill a discrimination against the farmers of the Northwest Congressman J. J. Esch, upon arriving home from Washington, said the measure now pending in the senate threatens the welfare of several industries and will yield insignificant benefits to the consumers.

Mr. Esch declares the bill reduces the protection on nearly every product of Northwestern farms. He predicts a great reduction in the flocks of sheep as a result of the free wool schedule. If the bill becomes a law and the duty is removed on sugar in three years disaster will overtake the cane and sugar beet industries in this country.

The bill was drawn, Mr. Esch said, entirely on the principle of tariff for revenue only and not with the idea of offering any protection to existing industries in this country.

HURRY RECLAMATION WORK

James J. Hill Gives Advice to Secretary Lane.

Washington, May 14.—"Hurry up and complete the reclamation projects under way and be sure you have competent men in the field," was the advice James J. Hill, the railroad magnate, gave to Secretary Lane at a reclamation hearing. He reiterated that it cost the reclamation service more than twice what it cost other services and private enterprises to reclaim the desert land.

"That is another reason why the government should go out of the business," said Mr. Hill. "He added that he was 'burdened' by complaints by settlers on the Milk river and the St. Mary's project in Canada about the delay for years in pushing the work to completion.

Mr. Hill concluded with an appeal for help for the settlers and praise for Montana as a land adaptable to reclamation projects.

STRIKING BARBERS IN RIOT

Smash Windows and Attempt to Rescue Men From Police.

New York, May 14.—Striking barbers attempting to close shops in the retail district above and below Twenty-third street came in conflict with the police at several places. When the mob tried to rescue two men who were arrested police clubs swung freely about a path which was cleared to a station house.

Later the barbers, augmented by several hundred sympathizers, marched to Fourteenth street, where stones were thrown through barber shop windows.

The men want higher pay and shorter hours.

PASS WISCONSIN INITIATIVE.

Madison, Wis., May 14.—The Wisconsin legislature approved the proposed constitutional amendment providing for the initiative and referendum, the senate concurring in the assembly joint resolution favoring direct legislation. The measure will go to the people next year.

ASSERTS DAY OF
BOSS HAS GONE

Secretary Bryan Talks to Pennsylvania Solons.

COMMON PEOPLE WILL RULE

Cabinet Officer Predicts That Before Another General Election the Presidential Primary Will Be in Vogue and That National Conventions Will Be Unnecessary.

Harrisburg, Pa., May 14.—Secretary of State William Jennings Bryan addressed the Pennsylvania legislature on the distinction between democracy and aristocracy.

He predicted that before another general election the presidential primary will be so general that they will be no need to hold national conventions and that presidential nominees will be named not by party leaders or bosses, but by the people.

Secretary Bryan came here to speak at the Jefferson anniversary dinner of the Central Democratic club of Harrisburg and was invited to address members of the legislature.

"Jefferson, a century ago, spoke of two parties," he said, "one was the Democratic party and the other the Aristocratic party. The Democratic party is that party which tries to bring the government nearer the people and the Aristocratic party is that which desires to restrain and obstruct popular government."

Says Platform Is Binding.

"It is important to know whether the executive representative is holding to the Democratic idea or the Aristocratic idea. It is a settled principle of this country that a platform is binding upon every man that runs on that platform. Some men violate platforms because they say they cannot violate their conscience."

"No man should violate his conscience, but that does not mean that he should violate his party platform. It means that his conscience should begin to work before he is elected and not afterward. A man who violates a party platform and betrays his party and the people is a criminal worse than the man who embezzles money."

"The day of the boss is gone. The people will write their own platform hereafter and send their own representatives to legislative halls. And I venture to say that we have seen the last of the great national conventions. I predict that before another presidential election rolls around the presidential candidates will be elected not by bosses or party leaders, but by the people."

WILL BUILD MODEL CITY

Steel Trust Official Announces Plans at Duluth.

Duluth, May 14.—The United States Steel corporation's plant here will be surrounded by a park townsite of 800 lots, on which the corporation will build 350 apartment houses and homes. These facts were announced by George L. Reis, vice president of the Minnesota Steel company. Work will be begun this summer on the buildings and at least one hundred will be erected this year.

The total cost will be \$1,300,000.

RESULTS ON THE DIAMOND

Northern League.

Standing of the Clubs—Philadelphia, 773; Washington, 636; Cleveland, 630; Chicago, 571; St. Louis, 444; Boston, 400; Detroit, 296; New York, 292.

NAVAL SECRETS ARE STOLEN

Plans of Ships and Documents Disappear.

Washington, May 14.—Special agents of the department of justice, officers of a nationally known detective agency and the local police have been called in by the navy department to investigate a "leak" through which during the last four months several relatively unimportant plans of ships and also minor documents have disappeared.

JOHN E. WILKIE.

Special Agent of Customs
Service Will Soon Resign.

WILKIE TO RESIGN SOON

Special Agent of Customs Service Will Take Commercial Position.

Washington, May 14.—John E. Wilkie, supervising special agent of the customs service and for fourteen years chief of the United States secret service, will resign shortly, it was learned unofficially. Mr. Wilkie will take a commercial position in Chicago.

JOHNSON GUILTY OF
VIOLATING MANN ACT

Jury Convicts Colored Fighter on Seven Counts.

Chicago, May 14.—Jack Johnson, champion heavyweight prize fighter, was found guilty of violating the Mann law in transporting Belle Schreiber from Pittsburgh to Chicago in 1910. He was convicted on all seven counts in the indictment. The jury returned its verdict after an hour's consideration.

The maximum penalty under the finding is five years' imprisonment or \$10,000 fine, or both.

A motion of Assistant District Attorney Harry Parkin that Johnson be ordered confined in the county jail was overruled by Judge Carpenter and the negro was released on a bond of \$10,000.

A motion for a new trial was filed at once by counsel for Johnson and arguments on the motion were set for May 19.

CUSTOMS RECEIPTS FALL OFF

May Report So Far Shows Material Decline.

Washington, May 14.—Government revenues from customs receipts are beginning to show a material decline for May, although heavy importations usually are characteristic of the spring months.

Customs receipts for the first twelve days of May amounted to \$7,428,278, as compared with \$10,768,975 for the corresponding period of 1912, or a decrease of \$3,340,697 in twelve days.

Total receipts from customs to date for the current fiscal year is \$12,250,000 greater than for the preceding year because of heavy receipts during the earlier months.

SEEKING OFFICIAL'S NEPHEW

London Police Want Man Who Violated Parole.

London, May 14.—The London police issued a "hue and cry" for Hugh A. Franklin, a nephew of Postmaster General Herbert L. Samuel, who was due to report to prison authorities May 12 under terms of his parole.

He was sentenced March 8 to nine months' imprisonment for setting fire to a railway carriage and was released April 28 owing to ill health resulting from a hunger strike.

The license given him afterward was torn to bits at a suffrage meeting.

Jose Sticks.

Jose sticks are made in vast quantities in China and other countries of the east. They consist of bamboo rolled in stems in different odoriferous drugs, two of which are aconite, which serve to protect the sticks against the attacks of rats and mice, and camphor, which causes them to burn steadily without being periodically extinguished.

REFUSE TO RECOGNIZE UNION

Cincinnati Traction Officials Block Strike Settlement.

Cincinnati, May 14.—After fruitless conferences in which Mayor Henry T. Hunt was the intermediary between the Cincinnati Traction company and its striking employees the deadlock is still on and the street car system is absolutely paralyzed.

Traction company officials are willing to open negotiations, but declare they cannot recognize the recently organized union. Union leaders declare that recognition of the union must take precedence over their other demands.

SOCIAL PROGRAM
IS NOT CHANGED

Politics Does Not Affect Washington Society Plans.

ONLY PEOPLE DIFFERENT.

Mrs. Wilson Sees Her Friends and Conducts White House Dinners, Teas and Parties, Just as Her Predecessors Did—Same in Cabinet Circles. Order Goes Back to the Long Ago.

By ARTHUR W. DUNN.

Washington, May 14.—[Special.]—In one respect there is no change by reason of a Republican administration being succeeded by one of Democratic politics. The social system is the same. The White House social program remains unchanged. Mrs. Wilson sees her friends and those in official life just as did Mrs. Taft and Mrs. Roosevelt and Mrs. Cleveland. There are White House dinners, White House lawn parties, White House "afternoons" and White House teas. There are different people, to be sure, but the methods are the same.

And so it is in cabinet circles. The wives of the new cabinet members have their days "at home," they have their dinners, their teas and other functions. If one could leave out the names in the society columns of the papers the same descriptions of last year would fit this year and so on back to the days of long ago.

Want Good Places.

The ways and means committee is out of the tariff pan into the committee fire. There are fourteen Democrats who cannot hope for any further advancement in this session of congress, but who have to distribute the few good places remaining among a horde of hungry members. It is asserted that one reason why the majority held together so solidly during the tariff bill debate was because the ways and means committee had these committee assignments to make and the president had a lot of patronage to distribute. New members believe it enhances their importance at home to get good committee assignments. But it is more personal than anything else. A man can't do very much for his constituents during his first session, no matter what may be his committee assignment.

But a new member does not like to see the sneering, flaring headlines in opposition papers to the effect that "our honored congressman has been given a place on 'distribution of waste paper,'" or some other equally unimportant committee. So the new members are fighting for good places.

A Few Kind Words.

Congressman Fitzgerald had very little to do in the tariff debate, but occasionally he flung in a few words so that future readers of the Congressional Record will know that he was there. A. Mitchell Palmer was talking and Congressman Donovan of Connecticut sought an interruption.

"Being an amateur," said Donovan, "it is only an intelligent gentleman that I can get information out of."

"After that—after that!" cried Fitzgerald.

"After that," said Palmer, "I will be glad to yield."

Preserves the Peace.

A little later Palmer was replying to questions from Donovan and in the midst of them Austin of Tennessee shouted:

"I challenge that statement."

"No challenges here," interjected Fitzgerald. "I will not stand for them."

Thus some of the serious hours of the tariff debate were lightened.

Hamilton, Humorist.

I once heard Eli Perkins tell the difference between wit and humor, and consequently I do not know the difference, but I class Hamilton of Michigan as a (or an) humorist. He doesn't bubble over with spontaneous remarks which convulse the house, but he carefully prepares a speech in short paragraphs, in which he injects delicious bits of political humor which can be read two or three times and enjoyed. Hamilton often injects witty remarks as interruptions, but it is one of these prepared speeches in which his humor shines.

Underwood's Admission.

Leader Underwood would not assert that the reduction in the tariff was going to greatly reduce food products. "As to sugar," he said, "I have no doubt that there will be a very great reduction in the price. As to the other food products, the probabilities are that it may be infinitesimal."

Do Japan Good.

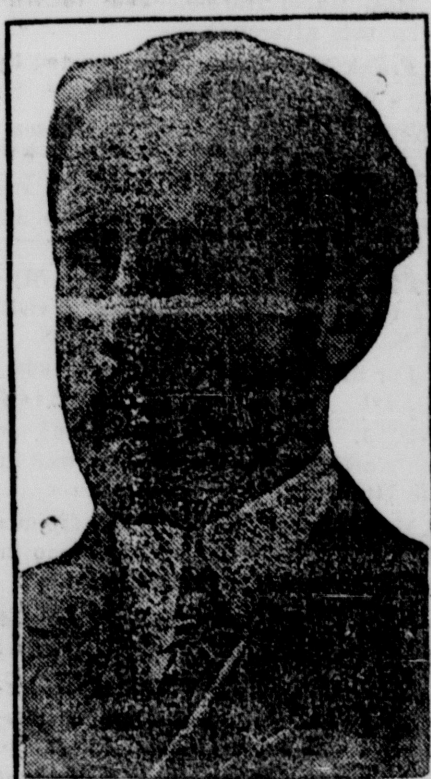

Congressman Talbot of Maryland, a veteran of the civil war, a member of the naval committee who always supports two battleships, is not so anxious as other members of his party to maintain peace with Japan. "The best thing that could happen for civilization," he said, "is for the United States to have a war with Japan and give her a good trouncing. It would not only be a good thing for the world, but it would be good for Japan."

And while every effort is being made to preserve peace and to avoid offending the Japanese, there are people of the Talbot way of thinking who would be glad to see the test between two great races tried out soon if it has got to come.

Accepted.

He—Would you take a dare?
She—Well, er—this is so sudden—
New York Sun.

DR. C. P. NEILL.

Commissioner of Labor
Statistics Quits Office.

DR. NEILL QUILTS HIS OFFICE

Labor Commissioner Goes With Guggenheims as Expert.

Washington, May 14.—Dr. Charles P. Neill, United States commissioner of labor since 1905 and recently made commissioner of labor statistics in the new department of labor, resigned to take up a position outside the government service. He was prominently identified with the arbitration of many noted wage disputes under the Erdman act.

Dr. Neill has taken a position with the American Smelting and Refining company to organize and conduct its labor department. In a statement Dr. Neill said the offer came to him from President Daniel Guggenheim through William Loeb, Jr., managing director of the Guggenheim corporations.

DYNAMITE BOMB IS
THROWN INTO HOME

Attempt to Kill Several Persons at St. Paul Fails.

St. Paul, May 14.—An attempt at wholesale destruction of life was made when a dynamite bomb was hurled through the sitting room window in the home of E. A. Russell, 522 Broadway. No one was injured but almost the entire side of the frame house was torn off by the concussion and the interior of the dining room was almost wrecked. Damage estimated at over \$1,000 was done. Eight persons were sitting on the front porch at the time.

Detectives arrested John Conte, a laborer employed in the Omaha railroad shops, and locked him up pending an investigation. No formal charge has been entered against him.

Besides Mr. and Mrs. Russell there were at home a number of roomers. All were considerably shaken up by the explosion and that no lives were lost is considered remarkable.

Whether the bomb was planted or hurled through the window, the police have been unable to determine. It is thought, however, that dynamite in stick form was used.

The explosion was heard for a mile or more and shook adjoining buildings like leaves on a tree.

WILL AID MRS. LONGSTREET

West Virginia Postmaster Offers Her \$3,600 Post.

Washington, May 14.—Denied reappearance as postmistress at Gainesville, Ga., by the Democratic administration Mrs. Helen D. Longstreet, widow of the famous Confederate general, has been offered a position by a former Union soldier.

Mrs. Longstreet said that Colonel Albert E. Boone of Clarksburg, W. Va., has offered her a place in his office at \$3,600 a year.

BOGUS NOTES STILL PASSED

Indian Head \$5 Certificate Remains in Circulation.

Washington, May 14.—The dangerous counterfeit Indian head \$5 silver certificate, recently discovered, continues in circulation, despite vigilance of secret service and treasury officials.

The notes, which are almost perfect imitations, are finding their way through banks and even the subtreasury in New York. The notes are printed on genuine paper obtained by washing \$1 bills.

MISSIONARIES ARE EXPELLED

Americans Driven From Southern Albania by Greeks.

Boston, May 14.—The American board of commissioners for foreign missions received a cable dispatch from the United States consul at Saloniki, saying American missionaries, Rev. Phineas B. Kennedy and Mrs. Kennedy, had been expelled from their station in Kortha, Southern Albania, by Greeks and are now in Saloniki.

REFER TO PARTY
AS BOSS RIDDEN

WOMAN SUFFRAGE IN NORWAY

Committee Favors Passage of Pending Measure.

Christiania, May 14.—Women suffragists throughout Norway are rejoicing over the unanimous report of the constitutional committee of the storting favoring the proposed new electoral law, giving the franchise to women on the same terms as it is granted to men.

The measure, which will add about 200,000 women to the total of Norwegian voters, will almost certainly be passed by the storting. Women of the country since 1907 have possessed municipal and limited general suffrage.

The new bill probably will reduce the age limit from twenty-five to twenty-one.

INDIAN "LID" CASE UP AGAIN

Government Seeks to Appeal From Injunction.

Bemidji, Minn., May 14.—Papers were served on Judge M. A. Spooner, attorney for the complainant, citing the complaints in an action against "Pussyfoot" Johnson and others, tried before Judge Willard some two years ago and generally known as the Indian lid case, to appear before the supreme court of the United States at Washington within sixty days in an appeal sought to be taken from Judge Willard's decision.

CAR STRIKES AUTO.

Thayer, Kan., May 14.—Nine men and two women were injured here when at a crossing a railroad motor car struck the automobile of Dr. J. A. De Moss, in which were five persons. The most seriously injured were Dr. De Moss and his daughter Edith, who are perhaps fatally hurt. Seven men in the railroad motor car were severely hurt.

SLAYS MILITARY ATTACHE

Bavarian Lunatic Also Kills Sergeant of Police.

Munich, Bavaria, May 14.—Major General von Lewinski, the Prussian military attaché to Bavaria, was killed here by a supposed lunatic named Straffer, who fired three revolver shots at him. A sergeant of police was also killed by Straffer.

The assassin attacked General von Lewinski on a crowded street, first firing several shots at him and then turning his weapon on the police sergeant, a man named Pollender, who dashed to the officer's assistance. The policeman was killed by a shot through the heart.

The assailant meanwhile was seized by a crowd of people who tried to lynch him before he was rescued by the police.

GRAIN AND PROVISION PRICES

South St. Paul Live Stock.

South St. Paul, May 14.—Cattle—Steers, \$6.30@8.35; cows and heifers, \$4.50@7.25; calves, \$5.00@8.50; feeders, \$4.30@7.75. Hogs—\$8.05@8.25. Sheep—Lambs, \$4.50@8.00; wethers, \$4.50@6.25; ewes, \$2.25@6.00.

Progressives Oppose Merging
With Republicans.

HAVE NOTHING IN COMMON

Headquarters of the Bull Moose Organization at Washington Issues Bulletin Stating That the Get Together Conference at Chicago Last Monday Did Not Represent Great Mass of Republicans.

Washington, May 14.—The statement is made in a bulletin issued at Progressive headquarters that the get together conference held Monday at Chicago does not represent the great mass of Republican voters and that Senators Cummins, Kenyon and Gronna and Governor Hadley are speaking only for themselves.

The bulletin says further that the Progressive party has nothing in common with the Republicans and that leaders at Chicago are wasting their time if they hope to have the Bull Mooseers with them in the get together movement.

Reference is made to the "boss ridden" Republican convention held in Chicago in 1912. In this connection, the Progressive bulletin says "the leadership of the Republican party has not changed in personnel or in character since that convention."

The bulletin says in part: "These gentlemen met in Chicago on their own invitation, by their own authority, and they represent themselves and nobody else. Their intention to go back into the party which in turn denounced them is not supported by the public word or act of any recognized Republican leader. So far as the Progressives are concerned there has never for a moment been a possibility of a favorable response to such an invitation."

DETECTIVES GUARD TRAINS

Three Attempts Made to Wreck Locomotives at Paterson.

Paterson, N. J., May 14.—A city detective rode on the locomotive of every Erie railroad train that entered and left Paterson. Police Chief Bimson took this measure to avert wrecks after three attempts within seventy-two hours to derail trains.

An attempt to enter a magazine store was made by persons unknown to the authorities. Entrance to the building was forced by picks, but concrete walls barred the way to the explosive.

WEDNESDAY, MAY 14, 1913

THE WEATHER

Temperature record taken at Gull lake dam, by caretaker, Arthur L. Mampel.

May 13, maximum 67, minimum 42.

The Anoka Herald thinks that the appointment of a woman on the police force of that city would be generally beneficial.

In Wichita, Kansas, a man must be able to run well in order to get a position on the police force. A good sprinter can usually get away from trouble if he sees it in time.

Brook trout are said to be one of the causes of cancer, and people eating this kind of fish are subject to the disease, one of the most loathsome and feared in the calendar. This information need not deter any successful angler from leaving his catch of the speckled beauties at our boarding house.

The toad is said to be the best friend of the farmer and his acquaintance should be cultivated. He is a great consumer of bugs and worms and the appearance of a dozen of these animals in your garden will insure an absence of the animal life detrimental to the growth of early vegetables and other garden truck. The toad should be protected.

Lewis C. Spooner, at one time candidate for governor but who was elected to the legislature, gave an accounting of his stewardship to the people at Morris at a public meeting in which he arraigned the recent legislature for its lavish appropriations, denounced what he termed as the Rines machine for blocking legislation and sent a message to the farmers that harvesting machinery made by the state will be sold to them far below the price asked by the trusts before the harvest of 1915. The unparalleled tax rate was gone into at length.

A tempest in a teapot has been raised at Fergus Falls owing to the action of the mayor in vetoing the resolution to grant a license to the proprietor of a moving picture house unless he would agree not to operate

old baby. Mr. Savage says that during his incumbency of 24 years homes have been found for 3,390 babies. Twenty of these came from Brainerd.

A Southeast Brainerd man brought home to his wife one evening a pair of handcuffs, which a friend, formerly on a detective force, had let him have. The housewife examined the steel bracelets and tried them on for fun and the lock snapped. There was no opening them and her hands were were not released until the next morning when a blacksmith broke the lock.

Awnings put up by D. M. Clark & Co.—Adv. 241-tf

A meeting of the Fourth of July executive committee will be held at 7:30 this evening at the water and light board offices and all the sub-committees will report. A large attendance is desired. One of the companies manufacturing fireworks will have a representative at the meeting to explain his offer to furnish day and night fireworks for the Fourth. Collections are increasing and the amount subscribed is now close to \$600. A list of donations to date will be published in The Dispatch on Thursday.

Farm loans for farms by a farmer. R. R. Livingston, Telephone 414-3. —Adv. 1734-1wtf

The Woodmen of the World will meet at the Citizens State bank hall, which will also be the meeting place of the auxiliary, the Woodmen Circle, on Thursday evening, May 15, on the occasion of the big class initiation. There will be an open meeting at eight o'clock in the evening to which all members and their friends are cordially invited. John W. Geiger, state manager of the jurisdiction of Iowa and Mrs. Mary LaRocca, supreme manager of the Woodmen Circle, will be the out-of-town speakers. The class to be initiated will have 45 candidates.

Assembly dance every Friday night at Gardner Auditorium. Blue Ribbon orchestra.—Adv. 291tf

The M. & I. railway general offices are being devastated by the ravages of the little god Cupid. In the past year over half a dozen stalwart men have been laid low by feathered shafts from the archer. It is said there are others soon to fall and a feeling of curiosity as well as insecurity pervades the ample domains of the second floor headquarters. One man has been found surreptitiously studying a furniture catalog and he was heard to remark sentimentally: "Oh, Two can live just as cheaply as one," and then the married fellows all grinned.

The spring months often find a woman tired out, with pain in back, hips and head, nervous and sleepless. Foley Kidney Pills will quickly prove their worth and value as a healer of all kidney and bladder ailments and irregularities. They are a splendid remedy for rheumatism, clearing the uric acid from the joints and system. Try them. H. P. Dunn, druggist.—Adv. mwf

Notice

I have rented the Spencer pasture southeast of town and want stock to pasture. Cows called for in the morning and returned in evening to any part of city. Charles Burris, 7th street—phone 302-L. Adv.—288t6p.

This Interests Every Woman

A family doctor said recently that women come to him thinking that they have female trouble, but when he treats them for their kidneys and bladder, they soon recover. This is worth knowing, and also that Foley Kidney Pills are the best and safest medicine at such times. They are tonic in action, quick in results. They will help you. H. P. Dunn, druggist.—Adv. mwf

TO CURE A COLD IN ONE DAY

Kidney and bladder ailments resist to Hindipo Tablets. 50c a box at Johnson's pharmacy.—Adv. 273

Bids for Cement Sidewalk, Cement Curb and Cement Cross Walks

Sealed bids will be received at the office of the city clerk, in the city of Brainerd until 8 o'clock P. M., May 19th, 1913, for furnishing the material and labor and constructing cement sidewalks, cement curbing and cement crossings, anywhere in the city of Brainerd during the season of 1913, according to plans and specifications on file in the office of the city engineer.

The council reserves the right to reject any and all bids.

V. N. RODERICK,
City Clerk.

By order of the city council
Dated May 12th, 1913. 290t3

In the end you will come to Hindipo Tablets. Why not take them at first. They cure all kidney ailments. Sold at Johnson's pharmacy.—Adv. 273

One in a Hundred.
Taking the statistics of the world, one person in every 100 born lives to be sixty-five years of age.

BACKACHE IS A DANGER SIGNAL

Kidney Troubles, Bladder Disorders, Rheumatism and Serious Diseases Follow

There are other symptoms, such as pains in the region of the kidneys, nervousness, dizziness, tired and wornout feeling, weak bladder, or urinary troubles which are just as dangerous, for the slightest kidney derangement if neglected, may develop into the deadly Bright's Disease, Dropsy or Diabetes.

It is not only dangerous, but needless for you to suffer and endure the tortures of these troubles for the new discovery, Hindipo, promptly ends all such misery.

There is no more effective remedy known for kidney, bladder trouble and rheumatism than this new scientific preparation, because it removes the cause. It soaks right into the kidneys through the walls and linings, cleans out the clogged up pores, neutralizes and dissolves the poisonous uric acid and waste matter that lodge in the joints and muscles and cause those terrible rheumatic pains, and makes the kidneys filter the poison from the blood and drives it out of the system.

Three doses of Hindipo a day for a few days is often all that is ever needed to relieve the worst backache or overcome disagreeable urinary disorders and you can take it with the utmost confidence that nothing on earth will so quickly reach the worst case of kidney, bladder trouble or rheumatism.

You will find Hindipo different from all other remedies. It is so prepared that it is practically impossible to take it into the human system without results. An original package costs but a trifle, and all druggists are authorized to return the purchase price if Hindipo should fail in a single case. —Adv.

THE BRAINERD MILLING COMPANY

Are Makers of Fine Grades of Flour, "Union," "Pride" and "Sea Foam"

H. C. JOHNSON IS THE MANAGER

Monthly Payroll \$400—Cash Paid for Wheat, Oats, Corn and Rye—Boon to Farmers

The Brainerd Milling Company flour mill is a local industry which should receive the patronage and support of Brainerd and Crow Wing county people.

The mill was taken over by the milling company and is under the management of H. C. Johnson, experienced in flour making, having worked for years at Anoka. The mill makes high grade flour and the brands are "Union," "Pride" and "Sea Foam." Cash is paid the farmers for their wheat, oats, corn and rye.

The monthly payroll at the mill is \$400. Brainerd should show this mill more of the "Minneapolis Spirit" which welcomes small industries and encourages them.

Think what it would mean for this Brainerd mill if every housewife said: "I am going to use nothing but Brainerd flour." It would be an impetus to production if but half the families of Brainerd used the flour.

It is good flour and the price to the dealer, said Mr. Johnson, is really lower than St. Paul or Minneapolis flour. There are some firms in the city who are pushing the sale of his commodity, but there are others who refuse to handle it.

Mr. Johnson is not asking much. Give the flour a trial. Give the mill a show to supply your wants. The writer is a booster for this flour for he uses it in his household and the hired girl makes the best bread you ever saw.

Card of Thanks

We wish to thank all our friends and neighbors, the L. O. T. M., the F. O. E., the B. P. O. E., the B. A. Y., machinists of the rod and link gang of the Northern Pacific shops, the Ladies Aid societies of the Norwegian-Danish Lutheran and Presbyterian churches, those who took part in the services, for the floral offerings, for their sympathy and the many kindnesses rendered us during the illness and death of our beloved wife and mother.

It A. Drogseth and Family.

Presbyterian Sunday School Social and Sale

The officers of the Presbyterian Sunday school will hold a social and sale at Walker's hall Friday night. Booths will be erected in different parts of the hall and articles sold. The various classes will have charge of the booths. Refreshments may be procured. The public is cordially invited.—Adv't.

A SUNDAY NIGHT TRAIN

Minnesota & International Railway Will Add This Convenience on June 1st.

Effective June 1st, the Minnesota & International railway, said General Manager W. H. Gemmell, will add a Sunday night train.

This is a great convenience to the tourists, lake resort visitors and to week-end cottagers, fishermen and the general travel on the M. & I. railway and the addition to train service will be appreciated.

CONCERT THIS EVENING

At Library Hall by Brainerd High School Orchestra Under Auspices Children's Hour

The concert by the Brainerd high school under the auspices of the Children's Hour will be given this evening at the library hall and a large number of tickets have been sold, thus guaranteeing a good attendance. The orchestra will play a number of selections and in addition there will be numbers by the best local talent.

A LITERARY PROGRAM

The Philathea Class of the Swedish Baptist Church Will Give Program May 16

The following literary program will be given by the "Philathea" class of the Swedish Baptist church Friday evening, May 16, at 8 o'clock. Refreshments will be served at the close of the program. The admission for adults is 25c and children 15c. The program follows:

1. Organ prelude..... Mrs. Lundin

11. Solo..... John Bye
12. Recitation..... Lillian Lundin
13. Duet..... Miss Michaelson, Esther Peterson
14. Music..... String Band
15. Song..... "Philathea Class"

Closing prayer.

JUDGE MILLS IN THE CITY

Chairman of State Railway and Warehouse Commission Confers with M. & I. Ry. Officials

Judge Ira B. Mills, of St. Paul, chairman of the state railway and warehouse commission, arrived in Brainerd on the afternoon train and took up with the Minnesota & International railway officials at the general offices in this city, their proposal to abandon a part of the line entering Brainerd, in order to build a cut-off from Leaks to West Brainerd.

BIG SAWMILL HAS NO BURNER

Only Mill in Seattle Which Has No Waste is the Schwager & Nettleton Harbor Island Mill

IS OPERATED BY ELECTRICITY

Walter B. Nettleton, One of the Partners, is Son of P. B. Nettleton of this City

When young Walter B. Nettleton, son of P. B. Nettleton of this city, fresh from the university, asked his father what business to enter, Mr. Nettleton advised him: "Go into lumber, land or wheat." Nettleton chose the lumber trade. For a year he worked in coast mills and learned the business from the ground up. Then he got a partner from Minneapolis and together they bought at sheriff's sale a small mill and acquired some logging lands. The mill commenced cutting and the partners put in every cent they could spare for improvements. Then came the California earthquake and when rebuilding started at San Francisco the demand for lumber reached high altitudes. The little mill became a larger mill. Its growth, fostered by careful attention, kept pace with the rising market. Today the annual cut is 60,000,000 feet.

The Seattle Post-Intelligencer, familiarly called the P-I all over the western coast, has the following to say of the Schwager & Nettleton mill and the article is superbly illustrated. Old mill men of Brainerd will be interested to read it.

"Seattle's industrial business has no better representative than the Schwager & Nettleton mills, one of the largest lumber plants in the city. This mill holds an advantageous position with regard to the coastwise and Alaska lumber business for the reason that vessels outward bound can load with the shortest possible delay and without wasting any time in docking at some out-of-the-way wharf.

Situated west of the West waterway, the Schwager & Nettleton mills are on the harbor front, the vessels leaving and entering the harbor must pass them. The mills, now working night and day to take care of the tremendous volume of business that comes their way, have an annual cut of 60,000,000 feet, half of which output goes to foreign ports. Thirty per cent of the cut goes coastwise to California, 10 per cent goes by rail to the eastern states, and 10 per cent goes locally and to Alaska.

The mill is one of the best-equipped in the northwest. It is entirely electrically operated, and in addition to the power used in their own mill, the company sells electric power to outside concerns. They also furnish steam for operating other industries.

The Schwager & Nettleton mills are the only ones in the country without a burner. All waste material is used for fuel and in the manufacture of power. This feature commends itself to the insurance men and aids in the reduction of the smoke nuisance, as well as obviating all refuse reaching the water.

The force necessary to operate the mills of the company numbers 225 men. City offices are maintained in the Cobb building, at Fourth avenue and University street, and from here the business is administered."

P. B. Nettleton's daughter, Miss Lulla Nettleton, is distinguished in the world of mountain climbing. She is historian of and also editor of the annual published by the Seattle Mountaineer club. She holds membership in the Sierra club and she has climbed many mountains over 10,000 feet high, including Mt. Whitney, the highest in the United States.

Miss Nettleton is a teacher at the Coe school in Seattle. She is a graduate of the Minneapolis high school, the Winona Normal and also studied at the university of Minnesota.

Her father has kept a memorandum of the mountains she has climbed and the aggregate distance up in the empyreal blue is 17 3-7 miles. The mountains include the following heights, 12,800 feet, 13,600 feet, 14,500 feet, 14,080 feet, 10,000 feet, 14,440 feet, 5,800 feet and 6,700 feet.

Miss Nettleton's picture reveals her as one of the true American girls, fond of the great out-of-doors, gifted with the clear, unafraid eyes of the girl who can unflinchingly look danger in the face in the shape of a glacier but who still might give an involuntary jump if she saw a mouse.

The penchant for mountain climbing is not inherited from her father. Mr. Nettleton would much prefer to stay on the democratic, common level of terra firma and figure heights with a lead pencil than negotiating them with an alpenstock.

Death of Former Brainerd Girl

Eva, daughter of Mr. and Mrs. Wm. Holden, passed away at her home in Mahanomen, Monday night, May 5th, of tuberculosis.

She will be remembered here as Genevieve, having attended the Lincoln school at one time. She left here with her parents about seven years ago and moved to Mahanomen.

The deceased was a niece of the late R. D. Holden and granddaughter of the late Hon. Peter Roy, of Little Falls. She is survived by her parents and three sisters, Mrs. T. W. Bartlett, of Usk, Wash., Mrs. T. F. Rodwell, of Bealieu and Miss Anna Holden, who resides at home, and two brothers, Peter Holden, of Duluth and John Holden. She was one of the most prominent young ladies of Mahanomen and will be missed by the entire community.

Union Made Clothes for Men

Three Big Days Thursday, Friday, Saturday

We are going to devote these three days of this week to strictly Union Made suits, hats, shoes, trousers and other wearing apparel for men. See our window display of Union Made Men's wear.

Peck Clothes--- Represent a line of men's suits that are strictly union made throughout. You will find them to be hand tailored, perfectly cut, correctly fitting garments in all the season's newest styles and colors. Tight or loose fitting coats and trousers, the new ideas in lapels and pockets in either two or three button sacks and norfoks. And the best part of it is on these three days we are going to sell for cash only.

\$27.50 Suits for \$25 \$25 Suits for \$22.50 \$22.50 Suits for \$20
\$18.00 Suits for \$16 \$16.00 Suits for \$15 \$15 Suits for \$12.50

Shoes--- Our line of shoes represents shoes from the best union shops in the country. A union made shoe needs no other guarantee as to workmanship. If you have never worn a pair of shoes from our store you have deprived your feet of a real treat and yourself of real foot comfort. \$2.50 to \$5. If you are a union man we will cut these prices a little for friendship sake.

Trousers--- Extra trousers for work and dress. We are the exclusive handlers of Sweet Orr pants and overall the first manufacturers of men's pants to recognize the garment makers' union and adopt the union label. We will sell them to you at prices that are right.

Even if you don't intend to buy come in anyway if you are interested in union made clothes and our union clerks will be glad to show you men's wearing apparel that bears the union label.

"MICHAEL'S"

"MICHAEL'S"

HOME INDUSTRY IS FLOURISHING

Cement Block Factory of Vaughn-Clausen Co. on West Front Street Has Many Orders

22 MEN ARE EMPLOYED

Cement Blocks, Bricks, Tile, Curbing, Walks and Foundations are Built

The Vaughn-Clausen Co., a new industry of Brainerd, is doing a flourishing business and has many orders to fill. The factory and yards are situated on West Front street opposite the Brainerd flour mill.

Both members of the firm, J. F. Vaughn and J. C. Clausen, have had much experience in the cement business and consequently the product turned out is of the highest grade.

They are manufacturers of continuous air space blocks for houses, barns and silos, cement brick, six and twelve inch tile, curbing, walks and foundations. A specialty is their reinforced well curbing for which they are working up quite a demand.

The equipment at the factory includes a Peerless brick machine, Anchor block machine, Anchor silo machine, well curbing machine, tile machine, automatic tapper, steam kilns, ten horsepower boiler, a five horsepower electric motor, and a mixer run by motor. Twenty-two men and three teams are at work.

Among recent orders filled was a car load of cement blocks for Nisswa where M. K. Swartz is building a boat house and garage. Among other contracts are the cement blocks and cement work for the First Congregational church parsonage, of which White Brothers are the general contractors; John Larson foundation for buggy sheds; J. E. Rothaus foundation and basement jumper and third streets; K. S. Bredenberg cement work; well curbing for E. R. Carlisle of Nisswa; basement and barn foundation at F. H. Gruenhagen farm.

This is a new industry in Brainerd and being a home enterprise which turns out good work, it should be well patronized.

"BIG BAKED POTATOES"

Attorney George H. Gardner Enjoys Them While Dining on Northern Pacific Train

This is the day of the "Big Baked Potatoes," and the Northern Pacific railway is serving them in a style which causes a man's mouth to water when he surveys their bursting sides, the snowy, fluffy spud breaking thru a brown, baked jacket. The humble Murphy has been enthroned and its merits recognized as at no other time of its history. Rome sang of its humming bird tongue feasts, and Lucullus and Chauncey Depew and other famous epicures waxed eloquent over different dainties, but it remained for the Northern Pacific railway to hoist the silent and lowly potato, the foundation of many a meal, to a prominence it had never before achieved.

And these potatoes are all that is claimed for them. Attorney George H. Gardner had a ride from Duluth to Brainerd on the Twin Port Limited. George took a bath, he had his suit pressed, he had a shave, he patronized the library, he visited the dining car, he had a meal, he ate one of those big baked potatoes, he looked at the scenery, but when he came to Brainerd it was nothing but baked potatoes that he was dishing on in his recital of his trip on the flyer.

BRAINERD WOMAN'S SUCCESS

Mrs. C. E. Warner, Cousin of F. A. Farrar, in Charge of Filene Restaurant in Boston

Success has crowned the efforts of a Brainerd woman, Mrs. C. E. Warner, who is now the able manager of the restaurant department of one of the largest department stores in Boston. Mrs. Warner was born and raised in Brainerd and upon the death of her husband took a course in domestic science. For a time she had charge of a tea room of a department store in Rochester, N. Y., and her originality and business acumen gained the favorable notice of some of the largest merchants of the New England metropolis. It was not long before she was engaged as manager of the restaurant of Filene's. Mrs. Warner is a cousin of F. A. Farrar of this city and so Brainerd people will be interested to read of her career in the business world.

"The Solicitor," a Boston trade paper, gives this account of her work, under the heading, "How the Filene Restaurant is Conducted." It says: "It is always intensely interesting to the outsider to observe the workings of any big establishment and in going through the restaurant department of William Filene's Sons Company, corner Washington and Summer streets, Boston, will be found one of the best working systems in Boston.

"The restaurant department is located on the eighth floor of the building and is under the sole charge of Mrs. C. E. Warner, who is well known among the restaurant and baking trade. Besides the restaurant, Mrs. Warner also oversees the management of the soda fountain and the lunch room departments in the basement.

"One of the things that attracts the attention of the observer quick-

est is the neat and sanitary arrangement of this huge dining room where everything is laid out with an eye to beauty and convenience. Each day the tables are newly decorated with fresh cut flowers and their fragrance can always be observed when entering the room. To look after the needs of the patrons there are seventy-five waitresses, five captains and two head waitresses, who are assisted by twenty bus-boys. These waitresses are arranged in three different sets. One set comes in at eight-thirty in the morning and works the entire day until five-thirty at night. The second set comes in about ten o'clock and gets through at four, then at eleven o'clock the last set arrives to help through the rush portion of the day and leaves at three o'clock in the afternoon. Many of these who work short hours have positions elsewhere.

"In the main dining-room there is an average of between twelve and fifteen hundred people fed each day and in the lunch room in the basement between two thousand and twenty-five hundred.

"Many people have formed the idea that this restaurant is only a mid-day affair, but it is not. When the doors open at eight-thirty patrons are served breakfast in the dining room, which continues up to eleven o'clock. Between eleven and three are the luncheon hours, and from three to five-thirty, afternoon tea.

"Every day during the afternoon tea session music is furnished and on Tuesdays and Fridays special vocalists are obtained to furnish entertainment. It may be interesting to the uninitiated to know that the seats for the afternoon tea are sold in advance just the same as in a theater and for fifty cents one can enjoy a fine musical entertainment with all the enjoyment of eating included.

"The 'no-tipping' system is another very noticeable point in this establishment. When this restaurant was first started the leads of the firm decided that they would establish a 'no tipping' system as an experiment and see if it could not be worked out to advantage to the public as well as to themselves, and although they are obliged to pay the waitresses double the salary obtained elsewhere they find they are able to please the public much better and also secure the services of a higher class of waitresses. The nice salaries paid them make them like their positions better than if they were paid half the amount and depended upon the rest for tips.

"Each day a special dish is made up and is taken through the dining-room on a huge rolling table operated by one of the bus-boys. This table is made on top in the shape of a huge service dish, underneath of which is an alcohol lamp to keep the food as warm as desired. A boy rolls this table through the dining-room and anyone wishing a portion of the specialty for the day is served from this huge table and then the boy goes on to the next one who may desire it. This is a very unique arrangement and attracts a great deal of favorable comment.

A custom which has been originated by Mrs. Warner and which is being carried out very successfully is the observing of holidays in some special manner. This was tried out as an experiment on the day before last Thanksgiving, when a special Thanksgiving menu was arranged. Special music for the occasion, consisting of old selections and home songs were played, which made a decided hit. Since the first trial this has been carried out at each holiday and each succeeding one seems to be more successful than the other. Mrs. Warner prepared an interesting program for Children's Week April 6 to 13 when she had special music for the children and a story teller and an especially prepared menu.

A slight cold in a child or a grown person holds possibilities of a grave nature. Croup may come on suddenly, bronchitis or pneumonia may develop, severe catarrhal troubles and consumption are possible results. Foley's Honey and Tar Compound nips a cold at the outset, cures croup quickly, checks a deep seated cough, and heals inflamed membranes. H. P. Dunn, druggist.—Adv. mwf

FACT

Local Evidence
Evidence that can be verified.
Fact is what we want.
Opinion is not enough.
Opinions differ.
Here's a Brainerd fact.
You can test it.

Charles Ellison, 512 S. Quince St., Brainerd, Minn., says: "My kidneys were disordered for several years and as time passed, my condition grew worse. About a year ago I was suddenly taken with such a severe pain in the small of my back that I had to stop work and go to bed. Medicine relieved me somewhat and I got out in a few weeks, but I still suffered severely. Someone finally advised me to try Doan's Kidney Pills and I procured a supply at H. P. Dunn's drug store. A few boxes restored me to good health and removed all symptoms of my complaint. I am confident that Doan's Kidney Pills will act just as satisfactorily in other cases of kidney trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

MUSIC AND DRAMA

Empress

At the Empress the feature film is "Brother Bill." The following is the plot of the scenes: Bill's younger brother, Jim, runs off to town and falls in love with a girl, who makes him believe he is a wonderful boy. He gets into trouble with another fellow, who objects to Jim's attentions to the girl. Bill comes to town from his mountain home, protects Jim, seizes the girl, jumps on his horse and carries her away to the mountains. He makes her promise she will let Jim alone and then sets her free. She falls in love with Bill, because of his love for his brother, and before she leaves him, she promises to become his wife. The wild ride of Bill with the girl and the pursuit of the posse, trying to overtake him, make this drama of mountain life a very powerful film picture.

A man living at Auburn, New York had a severe attack of kidney and bladder trouble. Being a working man, not wanting to lose time, he cured himself completely by using Foley's Kidney Pills. A year later he says: "It is a pleasure to report that the cure was permanent." His name is J. A. Farmer. H. P. Dunn, druggist.—Adv. mwf

Throughbred Chickens

Let Us Start You in the Chicken Business

ROSE COMB BLACK MINORCAS

Layers of the largest white eggs. Our stock is from the celebrated Edgemont poultry farm, the largest breeders of R. C. Black Minorcas in the world. Pure bred stock only, and from prize winning matings. We can spare only a few settings of eggs from these birds at \$3.00 for 15 as we want to hatch most of them ourselves.

Egg record for one year, 250

ROSE COMB RHODE ISLAND REDS

We have one pen of these beautiful and popular breed and they are the best we have ever seen. Almost as large as turkeys, and great winter layers. This breed won the 1st prize at the great International Egg Laying contest in Missouri in 1912, laying almost as many eggs in the winter months as in summer. We can spare a few settings at \$2 for 15.

Egg record for 1 year, 263

RINGLET-BARRED PLYMOUTH ROCKS

Line-bred and trap-nested for 20 years. This is the greatest laying strain in the U. S. The individual egg record for 1 year of this pen of hens is from 259 to 268 and we have never heard of their equal and don't believe they exist. You can have a setting for \$4 for 15.

STUBBORN FIGHT ON NOMINATIONS

Republican Senators Opposing Confirmation.

CONTEST BEGINS ON HARRIS

Appointment of Georgia Man as Director of the Census to Succeed E. Dana Durand Precipitates Conflict. Opposition Maintains Important Positions Should Not Be Given Out as Political Reward.

Washington, May 14.—Senate Republicans began their first big fight on President Wilson's nominations when the appointment of W. J. Harris of Georgia as director of the census, succeeding E. Dana Durand, was taken up in executive session.

The Republicans forced roll call after roll call on a question of procedure and in support of tactics which the Democrats termed dilatory. Motions to put the nomination over until Friday and until next week were defeated and when the membership on both sides had dwindled to almost nothing adjournment was taken with the Harris nomination where it was when the doors were closed.

Republican leaders have served notice that they expect to keep up the fight against the confirmation of Harris until July 1 at least, when Mr. Durand has announced his intention to quit.

Under senate rules there is no question of their ability to filibuster to their heart's content.

The Republican fight centers largely on the contention that offices requiring technical knowledge or scientific attainments should not be given as political rewards, but that qualification and experience should be the only yard stick.

Mr. Harris was chairman of the Democratic state executive committee of Georgia in the last campaign and is known as an original Wilson man.

CRITICISES NEW TARIFF BILL

Congressman Esch Says It Will Injure Northwest.

La Crosse, Wis., May 14.—Pronouncing the Democratic tariff bill a discrimination against the farmers of the Northwest Congressman J. J. Esch, upon arriving home from Washington, said the measure now pending in the senate threatens the welfare of several industries and will yield insignificant benefits to the consumers.

Mr. Esch declares the bill reduces the protection on nearly every product of Northwestern farms. He predicts a great reduction in the flock of sheep as a result of the free wool schedule. If the bill becomes a law and the duty is removed on sugar in three years disaster will overtake the cane and sugar beet industries in this country.

The bill was drawn, Mr. Esch said, entirely on the principle of tariff for revenue only and not with the idea of offering any protection to existing industries in this country.

HURRY RECLAMATION WORK

James J. Hill Gives Advice to Secretary Lane.

Washington, May 14.—"Hurry up and complete the reclamation projects under way and be sure you have competent men in the field," was the advice James J. Hill, the railroad magnate, gave to Secretary Lane at a reclamation hearing. He reiterated that it cost the reclamation service more than twice what it cost other services and private enterprises to reclaim the desert land.

"That is another reason why the government should go out of the business," said Mr. Hill. "He added that he was 'burdened' with complaints by settlers on the Milk river and the St. Mary's project in Canada about the delay for years in pushing the work to completion.

Mr. Hill concluded with an appeal for help for the settlers and praise for Montana as a land adaptable to reclamation projects.

SMASH WINDOWS AND ATTEMPT TO RESCUE MEN FROM POLICE.

New York, May 14.—Striking barbers attempting to close shops in the retail district above and below Twenty-third street came in conflict with the police at several places. When the mob tried to rescue two men who were arrested police clubs swung freely about a path which was cleared to a station house.

Later the barbers, augmented by several hundred sympathizers, marched to Fourteenth street, where stones were thrown through barber shop windows.

The men want higher pay and shorter hours.

Pass Wisconsin Initiative.

Madison, Wis., May 14.—The Wisconsin legislature approved the proposed constitutional amendment providing for the initiative and referendum, the senate concurring in the assembly joint resolution favoring direct legislation. The measure will go to the people next year.

ASSERTS DAY OF BOSS HAS GONE

Secretary Bryan Talks to Pennsylvania Solons.

COMMON PEOPLE WILL RULE

Cabinet Officer Predicts That Before Another General Election the Presidential Primary Will Be in Vogue and That National Conventions Will Be Unnecessary.

Harrisburg, Pa., May 14.—Secretary of State William Jennings Bryan addressed the Pennsylvania legislature on the distinction between democracy and aristocracy.

He predicted that before another general election the presidential primary will be so general that they will be no need to hold national conventions and that presidential nominees will be named not by party leaders or bosses, but by the people.

Secretary Bryan came here to speak at the Jefferson anniversary dinner of the Central Democratic club of Harrisburg and was invited to address members of the legislature.

"Jefferson, a century ago, spoke of two parties," he said, "one was the Democratic party and the other the Aristocratic party. The Democratic party is that party which tries to bring the government nearer the people and the Aristocratic party is that which desires to restrain and obstruct popular government.

Says Platform Is Binding.

"It is important to know whether the executive representative is holding to the Democratic idea or the Aristocratic idea. It is a settled principle of this country that a platform is binding upon every man that runs on that platform. Some men violate platforms because they say they cannot violate their conscience.

"No man should violate his conscience, but that does not mean that he should violate his party platform. It means that his conscience should begin to work before he is elected and not afterward. A man who violates a party platform and betrays his party and the people is a criminal worse than the man who embezzles money.

"The day of the boss is gone. The people will write their own platform hereafter and send their own representatives to legislative halls. And I venture to say that we have seen the last of the great national conventions.

"I predict that before another presidential election rolls around the presidential candidates will be elected not by bosses or party leaders, but by the people."

WILL BUILD MODEL CITY

Steel Trust Official Announces Plans at Duluth.

Duluth, May 14.—The United States Steel corporation's plant here will be surrounded by a park to the west of 800 lots, on which the corporation will build 350 apartment houses and homes. These facts were announced by George L. Reis, vice president of the Minnesota Steel company. Work will be begun this summer on the buildings and at least one hundred will be erected this year.

The total cost will be \$1,300,000.

NAVAL SECRETS ARE STOLEN

Plans of Ships and Documents Disappear.

Washington, May 14.—Special agents of the department of justice, officers of a nationally known detective agency and the local police have been called in by the navy department to investigate a "leak" through which during the last four months several relatively unimportant plans of ships and also minor documents have disappeared.

JOHN E. WILKIE.
Special Agent of Customs Service Will Soon Resign.

WILKIE TO RESIGN SOON

Special Agent of Customs Service Will Take Commercial Position.

Washington, May 14.—John E. Wilkie, supervising special agent of the customs service and for fourteen years chief of the United States secret service, will resign shortly, it was learned unofficially. Mr. Wilkie will take a commercial position in Chicago.

JOHNSON GUILTY OF VIOLATING MANN ACT

Jury Convicts Colored Fighter on Seven Counts.

Chicago, May 14.—Jack Johnson, champion heavyweight prize fighter, was found guilty of violating the Mann law in transporting Belle Schreiber from Pittsburgh to Chicago in 1910. He was convicted on all seven counts in the indictment. The jury returned its verdict after an hour's consideration. The maximum penalty under the finding is five years' imprisonment or \$10,000 fine, or both.

A motion of Assistant District Attorney Harry Parkin that Johnson be ordered confined in the county jail was overruled by Judge Carpenter and the negro was released on a bond of \$10,000.

A motion for a new trial was filed at once by counsel for Johnson and arguments on the motion were set for May 19.

CUSTOMS RECEIPTS FALL OFF

May Report So Far Shows Material Decline.

Washington, May 14.—Government revenues from customs receipts are beginning to show a material decline for May, although heavy importations usually are characteristic of the spring months.

Customs receipts for the first twelve days of May amounted to \$7,428,278, as compared with \$10,768,975 for the corresponding period of 1912, or a decrease of \$3,340,697 in twelve days.

Total receipts from customs to date for the current fiscal year is \$12,250,000 greater than for the preceding year because of heavy receipts during the earlier months.

SEEKING OFFICIAL'S NEPHEW

London Police Want Man Who Violated Parole.

London, May 14.—The London police issued a "hue and cry" for Hugh A. Franklin, a nephew of Postmaster General Herbert L. Samuel, who was due to report to prison authorities May 12 under terms of his parole.

He was sentenced March 8 to nine months' imprisonment for setting fire to a railway carriage and was released April 28 owing to ill health resulting from a hunger strike.

The license given him afterward was torn to bits at a suffrage meeting.

Joss Sticks.

Joss sticks are made in vast quantities in China and other countries of the east. They consist of bamboo rolled in stems in different odoriferous drugs, two of which are acetic, which serve to protect the sticks against the attacks of rats and mice, and camphor, which causes them to burn steadily without being periodically extinguished.

REFUSE TO RECOGNIZE UNION

Cincinnati Traction Officials Block Strike Settlement.

Cincinnati, May 14.—After fruitless conferences in which Mayor Henry T. Hunt was the intermediary between the Cincinnati Traction company and its striking employees the deadlock is still on and the street car system is absolutely paralyzed.

Traction company officials are willing to open negotiations, but declare they cannot recognize the recently organized union. Union leaders declare that recognition of the union must take precedence over their other demands.

SOCIAL PROGRAM IS NOT CHANGED

Politics Does Not Affect Washington Society Plans.

ONLY PEOPLE DIFFERENT.

Mrs. Wilson Sees Her Friends and Conducts White House Dinners, Teas and Parties, Just as Her Predecessors Did—Same in Cabinet Circles. Order Goes Back to the Long Ago.

By ARTHUR W. DUNN.

Washington, May 14.—[Special.]—In one respect there is no change by reason of a Republican administration being succeeded by one of Democratic politics. The social system is the same. The White House social program remains unchanged. Mrs. Wilson sees her friends and those in official life just as did Mrs. Taft and Mrs. Roosevelt and Mrs. Cleveland. There are White House dinners, White House lawn parties, White House "afternoons" and White House teas. There are different people, to be sure, but the methods are the same.

And so it is in cabinet circles. The wives of the new cabinet members have their days "at home," they have their dinners, their teas and other functions. If one could leave out the names in the society columns of the papers the same descriptions of last year would fit this year and so on back to the days of long ago.

Want Good Places.

The ways and means committee is out of the tariff pan into the committee fire. There are fourteen Democrats who cannot hope for any further advancement in this session of congress, but who have to distribute the few good places remaining among a horde of hungry members. The new members want good places. It is asserted that one reason why the majority held together so solidly during the tariff bill debate was because the ways and means committee had these committee assignments to make and the president had a lot of patronage to distribute. New members believe it enhances their importance at home to get good committee assignments. But it is more personal than anything else. A man can't do very much for his constituents during his first session, no matter what may be his committee assignment.

A few kind words. Congressman Fitzgerald had very little to do in the tariff debate, but occasionally he flung in a few words so that future readers of the Congressional Record will know that he was there. A. Mitchell Palmer was talking and Congressman Donovan of Connecticut sought an interruption.

"Being an amateur," said Donovan, "it is only an intelligent gentleman that I can get information out of."

"After that—after that!" cried Fitzgerald.

"After that," said Palmer, "I will be glad to yield."

Preserves the Peace.

A little later Palmer was replying to questions from Donovan and in the midst of them Austin of Tennessee shouted:

"I challenge that statement."

"No challenges here," interjected Fitzgerald. "I will not stand for them."

Thus some of the serious hours of the tariff debate were lightened.

Hamilton, Humorist.

I once heard Eli Perkins tell the difference between wit and humor, and consequently I do not know the difference, but I class Hamilton of Michigan as a (or an) humorist. He doesn't bubble over with spontaneous remarks which convulse the house, but he carefully prepares a speech in short paragraphs, in which he injects delicious bits of political humor which can be read two or three times and enjoyed.

Hamilton often injects witty remarks as interruptions, but it is one of these prepared speeches in which his humor shines.

Underwood's Admission. Leader Underwood would not assert that the reduction in the tariff was going to greatly reduce food products. "As to sugar," he said, "I have no doubt that there will be a very great reduction in the price. As to the other food products, the probabilities are that it may be infinitesimal."

Do Japan Good.

Congressman Talbot of Maryland, a veteran of the civil war, a member of the naval committee who always supports two battleships, is not so anxious as other members of his party to maintain peace with Japan. "The best thing that could happen for civilization," he said, "is for the United States to have a war with Japan and give her a good trouncing. It would not only be a good thing for the world, but it would be good for Japan."

And while every effort is being made to preserve peace and to avoid offending the Japanese, there are people of the Talbot way of thinking who would be glad to see the test between two great races tried out soon if it has got to come.

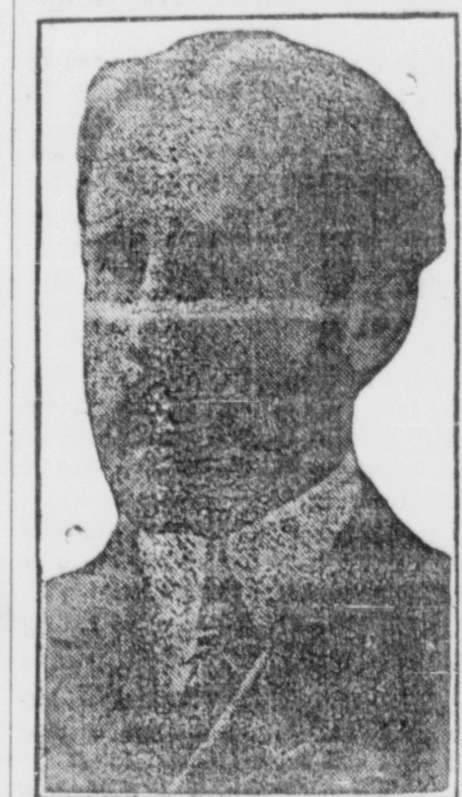

Accepted.

He—Would you take a dare?

She—Well, er—this is so sudden—

New York Sun.

DR. C. P. NEILL.
Commissioner of Labor Statistics Quits Office.

DR. NEILL QUILTS HIS OFFICE

Labor Commissioner Goes With Guggenheims as Expert.

Washington, May 14.—Dr. Charles P. Neill, United States commissioner of labor since 1905 and recently made commissioner of labor statistics in the new department of labor, resigned to take up a position outside the government service. He was prominently identified with the arbitration of many noted wage disputes under the Erdman act.

Dr. Neill has taken a position with the American Smelting and Refining company to organize and conduct its labor department. In a statement Dr. Neill said the offer came to him from President Daniel Guggenheim through William Loeb, Jr., managing director of the Guggenheim corporations.

DYNAMITE BOMB IS THROWN INTO HOME

Attempt to Kill Several Persons at St. Paul Fails.

St. Paul, May 14.—An attempt at wholesale destruction of life was made when a dynamite bomb was hurled through the sitting room window in the home of E. A. Russell, 522 Broadway. No one was injured but almost the entire side of the frame house was torn off by the concussion and the interior of the dining room was almost wrecked. Damage estimated at over \$1,000 was done. Eight persons were sitting on the front porch at the time.

Detectives arrested John Conte, a laborer employed in the Omaha railroad shops, and locked him up pending an investigation. No formal charge has been entered against him.

Besides Mr. and Mrs. Russell there were at home a number of roomers. All were considerably shaken up by the explosion and that no lives were lost is considered remarkable.

Whether the bomb was planted or hurled through the window, the police have been unable to determine. It is thought, however, that dynamite in stick form was used.

The explosion was heard for a mile or more and shook adjoining buildings like leaves on a tree.

WILL AID MRS. LONGSTREET

West Virginia Postmaster Offers Her \$3,600 Post.

Washington, May 14.—Denied reapportionment as postmistress at Gainesville, Ga., by the Democratic administration Mrs. Helen D. Longstreet, widow of the famous Confederate general, has been offered a position by a former Union soldier.

Mrs. Longstreet said that Colonel Albert E. Boone of Clarkburg, W. Va., has offered her a place in his office at \$3,600 a year.

BOGUS NOTES STILL PASSED

Indian Head \$5 Certificate Remains in Circulation.

Washington, May 14.—The dangerous counterfeit Indian head \$5 silver certificate, recently discovered, continues in circulation, despite vigilance of secret service and treasury officials.

The notes, which are almost perfect imitations, are finding their way through banks and even the subtreasuries in New York. The notes are printed on genuine paper obtained by washing \$1 bills.

MISSIONARIES ARE EXPELLED

Americans Driven From Southern Albania by Greeks.

Boston, May 14.—The American board of commissioners for foreign missions received a cable dispatch from the United States consul at Saloniki, saying American missionaries, Rev. Phineas B. Kennedy and Mrs. Kennedy, had been expelled from their station in Korchia, Southern Albania, by Greeks and are now in Saloniki.

REFER TO PARTY AS BOSS RIDDEN

WOMAN SUFFRAGE IN NORWAY

Committee Favors Passage of Pending Measure.

Christiania, May 14.—Women suffragists throughout Norway are rejoicing over the unanimous report of the constitutional committee of the storting favoring the proposed new electoral law, giving the franchise to women on the same terms as it is granted to men.

The measure, which will add about 200,000 women to the total of Norwegian voters, will almost certainly be passed by the storting. Women of the country since 1907 have possessed municipal and limited general suffrage.

The new bill probably will reduce the age limit from twenty-five to twenty-one.

INDIAN "LID" CASE UP AGAIN

Government Seeks to Appeal From Injunction.

Benndji, Minn., May 14.—Papers were served on Judge M. A. Spooner, attorney for the complainant, citing the complaints in an action against "Pussfoot" Johnson and others, tried before Judge Willard some two years ago and generally known as the Indian lid case, to appear before the supreme court of the United States at Washington within sixty days in an appeal sought to be taken from Judge Willard's decision.

CAR STRIKES AUTO.

Thayer, Kan., May 14.—Nine men and two women were injured here when at a crossing a railroad motor car struck the automobile of Dr. J. A. De Moss, in which were five persons. The most seriously injured were Dr. De Moss and his daughter Edith, who are perhaps fatally hurt. Seven men in the railroad motor car were severely hurt.

SLAYS MILITARY ATTACHE

Bavarian Lunatic Also Kills Sergeant of Police.

Munich, Bavaria, May 14.—Major General von Lewinski, the Prussian military attaché to Bavaria, was killed here by a supposed lunatic named Straffer, who fired three revolver shots at him. A sergeant of police was also killed by Straffer.

The assassin attacked General von Lewinski on a crowded street, first firing several shots at him and then turning his weapon on the police sergeant, a man named Pollender, who dashed to the officer's assistance. The policeman was killed by a shot through the heart.

The assailant meanwhile was seized by a crowd of people who tried to lynch him and succeeded in seriously injuring him before he was rescued by the police.

GRAIN AND PROVISION PRICES

Progressives Oppose Merging With Republicans.

HAVE NOTHING IN COMMON

Headquarters of the Bull Moose Organization at Washington Issues Bulletin Stating That the Get Together Conference at Chicago Last Monday Did Not Represent Great Mass of Republicans.

Washington, May 14.—The statement is made in a bulletin issued at Progressive headquarters that the get together conference held Monday at Chicago does not represent the great mass of Republican voters and that Senators Cummins, Kenyon and Gronna and Governor Hadley are speaking only for themselves.

The bulletin says further that the Progressive party has nothing in common with the Republicans and that leaders at Chicago are wasting their time if they hope to have the Bull Moosers with them in the get together movement.

Reference is made to the "boss ridden" Republican convention held in Chicago in 1912. In this connection, the Progressive bulletin says "the leadership of the Republican party has not changed in personnel or in character since that convention."

The bulletin says in part: "These gentlemen met in Chicago on their own invitation, by their own authority, and they represent themselves and nobody else. Their intention to go back into the party which they denounced last year and which in turn denounced them is not supported by the public word or act of any recognized Republican leader.

Temperature record taken at Gull lake dam, by caretaker, Arthur L. Nampel.
May 13, maximum 67, minimum 42.

The Anoka Herald thinks that the appointment of a woman on the police force of that city would be generally beneficial.

In Wichita, Kansas, a man must be able to run well in order to get a position on the police force. A good sprinter can usually get away from trouble if he sees it in time.

Brook trout are said to be one of the causes of cancer, and people eating this kind of fish are subject to the disease, one of the most loathsome and feared in the calendar. This information need not deter any successful angler from leaving his catch of the speckled beauties at our boarding house.

The toad is said to be the best friend of the farmer and his acquaintance should be cultivated. He is a great consumer of bugs and worms and the appearance of a dozen of these animals in your garden will insure an absence of the animal life detrimental to the growth of early vegetables and other garden truck. The toad should be protected.

Lewis C. Spooner, at one time candidate for governor but who was elected to the legislature, gave an accounting of his stewardship to the people at Morris at a public meeting in which he arraigned the recent legislature for its lavish appropriations, denounced what he termed as the Rines machine for blocking legislation and sent a message to the farmers that harvesting machinery made by the state will be sold to them far below the price asked by the trusts before the harvest of 1915. The unparalleled tax rate was gone into at length.

A tempest in a teapot has been raised at Fergus Falls owing to the action of the mayor in vetoing the resolution to grant a license to the proprietor of a moving picture house unless he would agree not to operate

HARD COLDS

When they first come, the best time to break them up. One standard remedy—Ayer's Cherry Pectoral. Sold for 70 years. Ask Your Doctor.

the same on Sundays. The mayor is opposed to Sunday amusements of any kind, no matter how mild, and the "movies" are on his list, although no complaint has ever been made, and it has not been shown that police regulation has ever been required. The courts will settle the matter, and in the meantime public sentiment seems to be with the picture man.

Kidney and bladder ailments resist to Hindipo Tablets. 50c a box at Johnson's pharmacy.—Adv. 273

Bids for Cement Sidewalk, Cement Curb and Cement Cross Walks

Sealed bids will be received at the office of the city clerk, in the city of Brainerd until 8 o'clock P. M., May 19th, 1913, for furnishing the material and labor and constructing cement sidewalks, cement curbing and cement crossings, anywhere in the city of Brainerd during the season of 1913, according to plans and specifications on file in the office of the city engineer.

The council reserves the right to reject any and all bids.

V. N. RODERICK,
City Clerk.

By order of the city council
Dated May 12th, 1913. 290t3

In the end you will come to Hindipo Tablets. Why not take them at first. They cure all kidney ailments. Sold at Johnson's pharmacy.—Adv. 273

One in a Hundred.

Taking the statistics of the world, one person in every 100 born lives to be sixty-five years of age.

**BACKACHE IS
A DANGER SIGNAL**

Kidney Troubles, Bladder Disorders, Rheumatism and Serious Diseases Follow

There are other symptoms, such as pains in the region of the kidneys, nervousness, dizziness, tired and worn-out feeling, weak bladder, or urinary troubles which are just as dangerous, for the slightest kidney derangement if neglected, may develop into the deadly Bright's Disease, Dropsy or Diabetes.

It is not only dangerous, but needless for you to suffer and endure the tortures of these troubles for the new discovery, Hindipo, promptly ends all such misery.

There is no more effective remedy known for kidney, bladder trouble and rheumatism than this new scientific preparation, because it removes the cause. It soaks right into the kidneys through the walls and linings, cleans out the clogged up pores, neutralizes and dissolves the poisonous uric acid and waste matter that lodge in the joints and muscles and cause those terrible rheumatic pains, and makes the kidneys filter the poison from the blood and drives it out of the system.

Three doses of Hindipo a day for a few days is often all that is ever needed to relieve the worst backache or overcome disagreeable urinary disorders and you can take it with the utmost confidence that nothing on earth will so quickly reach the worst case of kidney, bladder trouble or rheumatism.

You will find Hindipo different from all other remedies. It is so prepared that it is practically impossible to take it into the human system without results. An original package costs but a trifle, and all druggists are authorized to return the purchase price if Hindipo should fail in a single case. —Adv.

THE BRAINERD MILLING COMPANY

Are Makers of Fine Grades of Flour, "Union," "Pride" and "Sea Foam"

H. C. JOHNSON IS THE MANAGER

Monthly Payroll \$400—Cash Paid for Wheat, Oats, Corn and Rye —Boon to Farmers

The Brainerd Milling Company flour mill is a local industry which should receive the patronage and support of Brainerd and Crow Wing county people.

The mill was taken over by the milling company and is under the management of H. C. Johnson, experienced in flour making, having worked for years at Anoka. The mill makes high grade flour and the brands are "Union," "Pride" and "Sea Foam." Cash is paid the farmers for their wheat, oats, corn and rye.

The monthly payroll at the mill is \$400. Brainerd should show this mill more of the "Minneapolis Spirit" which welcomes small industries and encourages them.

Think what it would mean for this Brainerd mill if every housewife said: "I am going to use nothing but Brainerd flour." It would be an impetus to production if but half the families of Brainerd used the flour. It is good flour and the price to the dealer, said Mr. Johnson, is really lower than St. Paul or Minneapolis flour. There are some firms in the city who are pushing the sale of his commodity, but there are others who refuse to handle it.

Mr. Johnson is not asking much. Give the flour a trial. Give the mill a show to supply your wants. The writer is a booster for this flour for he uses it in his household and the hired girl makes the best bread you ever saw.

Card of Thanks

We wish to thank all our friends and neighbors, the L. O. T. M., the F. O. E., the B. P. O. E., the B. A. Y., machinists of the rod and link gang of the Northern Pacific shops, the Ladies Aid societies of the Norwegian-Danish Lutheran and Presbyterian churches, those who took part in the services, for the floral offerings, for their sympathy and the many kindnesses rendered us during the illness and death of our beloved wife and mother.

It A. Drogseth and Family.
Presbyterian Sunday School Social and Sale

The officers of the Presbyterian Sunday school will hold a social and sale at Walker's hall Friday night. Booths will be erected in different parts of the hall and articles sold. The various classes will have charge of the booths. Refreshments may be procured. The public is cordially invited.—Advt.

A SUNDAY NIGHT TRAIN

Minnesota & International Railway Will Add This Convenience on June 1st.

Effective June 1st, the Minnesota & International railway, said General Manager W. H. Gemmell, will add a Sunday night train.

This is a great convenience to the tourists, lake resort visitors and to week-end cottagers, fishermen and the general travel on the M. & I. railway and the addition to train service will be appreciated.

CONCERT THIS EVENING

At Library Hall by Brainerd High School Orchestra Under Auspices Children's Hour

The concert by the Brainerd high school under the auspices of the Children's Hour will be given this evening at the library hall and a large number of tickets have been sold, thus guaranteeing a good attendance. The orchestra will play a number of selections and in addition there will be numbers by two best local talent.

A LITERARY PROGRAM

The Philathea Class of the Swedish Baptist Church Will Give Program May 16

13. Duet—Miss Michaelson, Esther Peterson
14. Music—String Band
15. Song—"Philathea Class"

Closing prayer.

JUDGE MILLS IN THE CITY

Chairman of State Railway and Warehouse Commission Confers with M. & I. Ry. Officials

Judge Ira B. Mills, of St. Paul, chairman of the state railway and warehouse commission, arrived in Brainerd on the afternoon train and took up with the Minnesota & International railway officials at the general offices in this city, their proposal to abandon a part of the line entering Brainerd, in order to build a cut-off from Leaks to West Brainerd.

BIG SAWMILL HAS NO BURNER

Only Mill in Seattle Which Has No Waste is the Schwager & Nettleton Harbor Island Mill

IS OPERATED BY ELECTRICITY

Walter B. Nettleton, One of the Partners, is Son of P. B. Nettleton of this City

When young Walter B. Nettleton, son of P. B. Nettleton of this city, fresh from the university, asked his father what business to enter, Mr. Nettleton advised him: "Go into lumber, land or wheat." Nettleton chose the lumber trade. For a year he worked in coast mills and learned the business from the ground up. Then he got a partner from Minneapolis and together they bought at sheriff's sale a small mill and acquired some logging lands. The mill commenced cutting and the partners put in every cent they could spare for improvements. Then came the California earthquake and when rebuilding started at San Francisco the demand for lumber reached high altitudes. The little mill became a larger mill. Its growth, fostered by careful attention, kept pace with the rising market. Today the annual cut is 60,000,000 feet.

The Seattle Post-Intelligencer, familiarly called the P-I all over the western coast, has the following to say of the Schwager & Nettleton mill and the article is superbly illustrated. Old mill men of Brainerd will be interested to read it.

"Seattle's industrial business has no better representative than the Schwager & Nettleton mills, one of the largest lumber plants in the city. This mill holds an advantageous position with regard to the coastwise and Alaska lumber business for the reason that vessels outward bound can load with the shortest possible delay and without wasting any time in docking at some out-of-the-way wharf.

Situated west of the West waterway, the Schwager & Nettleton mills are on the harbor front, the vessels leaving and entering the harbor must pass them. The mills, now working night and day to take care of the tremendous volume of business that comes their way, have an annual cut of 60,000,000 feet, half of which output goes to foreign ports. Thirty per cent of the cut goes coastwise to California, 10 per cent goes by rail to the eastern states, and 10 per cent goes locally and to Alaska.

The mill is one of the best-equipped in the northwest. It is entirely electrically operated, and in addition to the power used in their own mill, the company sells electric power to outside concerns. They also furnish steam for operating other industries.

The Schwager & Nettleton mills are the only ones in the country without a burner. All waste material is used for fuel and in the manufacture of power. This feature commends itself to the insurance men and aids in the reduction of the smoke nuisance, as well as obviating all refuse reaching the water.

The force necessary to operate the mills of the company numbers 225 men. City offices are maintained in the Cobb building, at Fourth avenue and University street, and from here the business is administered."

P. B. Nettleton's daughter, Miss Lulla Nettleton, is distinguished in the world of mountain climbing. She is historian of and also editor of the annual published by the Seattle Mountaineer club. She holds membership in the Sierra club and she has climbed many mountains over 10,000 feet high, including Mt. Whitney, the highest in the United States.

Miss Nettleton is a teacher at the Coe school in Seattle. She is a graduate of the Minneapolis high school, the Winona Normal and also studied at the university of Minnesota.

Her father has kept a memorandum of the mountains she has climbed and the aggregate distance up in the empyreal blue is 173-7 miles. The mountains include the following heights, 12,800 feet, 13,600 feet, 14,500 feet, 14,080 feet, 10,000 feet, 14,440 feet, 5,800 feet and 6,700 feet.

Miss Nettleton's picture reveals her as one of the true American girls, fond of the great out-of-doors, gifted with the clear, unafraid eyes of the girl who can unflinchingly look danger in the face in the shape of a glacier but who still might give an involuntary jump if she saw a mouse.

The penchant for mountain climbing is not inherited from her father. Mr. Nettleton would much prefer to stay on the democratic, common level of terra firma and figure heights with a lead pencil than negotiating them with an alpenstock.

Death of Former Brainerd Girl
Eva, daughter of Mr. and Mrs. Wm. Holden, passed away at her home in Mahanomen, Monday night, May 5th, of tuberculosis.

She will be remembered here as Genevieve, having attended the Lincoln school at one time. She left here with her parents about seven years ago and moved to Mahanomen.

The deceased was a niece of the late R. D. Holden and granddaughter of the late Hon. Peter Roy, of Little Falls. She is survived by her parents and three sisters, Mrs. T. W. Bartlett, of Usk, Wash., Mrs. T. F. Rodwell, of Beaulieu and Miss Anna Holden, who resides at home, and two brothers, Peter Holden, of Duluth and John Holden. She was one of the most prominent young ladies of Mahanomen and will be missed by the entire community.

HOME INDUSTRY IS FLOURISHING

Cement Block Factory of Vaughn-Clausen Co. on West Front Street Has Many Orders

22 MEN ARE EMPLOYED

Cement Blocks, Bricks, Tile, Curbing, Walks and Foundations are Built

The Vaughn-Clausen Co., a new industry of Brainerd, is doing a flourishing business and has many orders to fill. The factory and yards are situated on West Front street opposite the Brainerd flour mill.

Both members of the firm, J. F. Vaughn and J. C. Clausen, have had much experience in the cement business and consequently the product turned out is of the highest grade.

They are manufacturers of continuous air space blocks for houses, barns and silos, cement brick, six and twelve inch tile, curbing, walks and foundations. A specialty is their reinforced well curbing for which they are working up quite a demand.

The equipment at the factory includes a Peerless brick machine, Anchor block machine, Anchor silo machine, well curbing machine, tile machine, automatic tamper, steam kilns, ten horsepower boiler, a five horsepower electric motor, and a mixer run by motor. Twenty-two men and three teams are at work.

Among recent orders filled was a car load of cement blocks for Nisswa where M. K. Swartz is building a boat house and garage.

Among other contracts are the cement blocks and cement work for the First Congregational church parsonage, of which White Brothers are the general contractors; John Larson foundation for buggy sheds; J. E. Rothaus foundation and basement Juniper and Third streets; K. S. Bredenberg cement work; well curbing for Will Thompson; well curbing for E. R. Carlisle of Nisswa; basement and barn foundation at F. H. Gruenhagen farm.

This is a new industry in Brainerd and being a home enterprise which turns out good work, it should be well patronized.

"BIG BAKED POTATOES"

Attorney George H. Gardner Enjoys Them While Dining on Northern Pacific Train

This is the day of the "Big Baked Potatoes," and the Northern Pacific railway is serving them in a style which causes a man's mouth to water when he surveys their bursting sides, the snowy, fluffy spud breaking thru a brown, baked jacket. The humble Murphy has been enthroned and its merits recognized as at no other time of its history. Rome sang of its humming bird tongue feasts, and Lucullus and Chauncey Depew and other famous epicures waxed eloquent over different dainties, but it remained for the Northern Pacific railway to hoist the silent and lowly potato, the foundation of many a meal, to a prominence it had never before achieved.

And these potatoes are all that is claimed for them. Attorney George H. Gardner had a ride from Duluth to Brainerd on the Twin Port Limited. George took a bath, he had his suit pressed, he had a shave, he patronized the library, he visited the dining car, he had a meal, he ate one of those big baked potatoes, he looked at the scenery, but when he came to Brainerd it was nothing but baked potatoes that he was dishing on in his recital of his trip on the flyer.

How's This
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & Co., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 16 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by him.

Clothes of Quality for Men and Boys

Union Made Clothes for Men

Three Big Days Thursday, Friday, Saturday

We are going to devote these three days of this week to strictly Union Made suits, hats, shoes, trousers and other wearing apparel for men. See our window display of Union Made Men's wear.

Peck Clothes—Represent a line of men's suits that are strictly union made throughout. You will find them to be hand tailored, perfectly cut, correctly fitting garments in all the season's newest styles and colors. Tight or loose fitting coats and trousers, the new ideas in lapels and pockets in either two or three button sacks and norfoks. And the best part of it is on these three days we are going to sell for cash only.

\$27.50 Suits for \$25 \$25 Suits for \$22.50 \$22.50 Suits for \$20
\$18.00 Suits for \$16 \$16.00 Suits for \$15 \$15 Suits for \$12.50

Shoes—Our line of shoes represents shoes from the best union shops in the country. A union made shoe needs no other guarantee as to workmanship. If you have never worn a pair of shoes from our store you have deprived your feet of a real treat and yourself of real foot comfort. \$2.50 to \$5. If you are a union man we will cut these prices a little for friendship sake.

Trousers—Extra trousers for work and dress. We are the exclusive handlers of Sweet Orr pants and overall the first manufacturers of men's pants to recognize the garment makers' union and adopt the union label. We will sell them to you at prices that are right.

Even if you don't intend to buy come in anyway if you are interested in union made clothes and our union clerks will be glad to show you men's wearing apparel that bears the union label.

BRAINERD WOMAN'S SUCCESS

Mrs. C. E. Warner, Cousin of F. A. Farrar, in Charge of Filene Restaurant in Boston

Success has crowned the efforts of a Brainerd woman, Mrs. C. E. Warner, who is now the able manager of the restaurant department of one of the largest department stores in Boston. Mrs. Warner was born and raised in Brainerd and upon the death of her husband took a course in domestic science. For a time she had charge of a tea room of a department store in Rochester, N. Y., and her originality and business acumen gained the favorable notice of some of the largest merchants of the New England metropolis. It was not long before she was engaged as manager of the restaurant of Filene's. Mrs. Warner is a cousin of F. A. Farrar of this city and so Brainerd people will be interested to read of her career in the business world.

"The Solicitor," a Boston trade paper, gives this account of her work, under the heading, "How the Filene Restaurant is Conducted." It says: "It is always intensely interesting to the outsider to observe the workings of any big establishment and in going through the restaurant department of William Filene's Sons Company, corner Washington and Summer streets, Boston, will be found one of the best working systems in Boston.

"The restaurant department is located on the eighth floor of the building and is under the sole charge of Mrs. C. E. Warner, who is well known among the restaurant and baking trade. Besides the restaurant, Mrs. Warner also oversees the management of the soda fountain and the lunch room departments in the basement.

"One of the things that attracts the attention of the observer quick-

ENGINEERING

F. A. GLASS, Mining Engineer—Examinations, Directions of Explorations, Surveys and General Engineering. Glass' map of the Chyuna is the best and is up to date covering mineral areas of Crow Wing, Aitkin, Morrison and Cass counties. Size 24x52 on paper \$4. Size 24x52 on cloth \$5.

est is the neat and sanitary arrangement of this huge dining room where everything is laid out with an eye to beauty and convenience. Each day the tables are newly decorated with fresh cut flowers and their fragrance can always be observed when entering the room. To look after the needs of the patrons there are seventy-five waitresses, five captains and two head waitresses, who are assisted by twenty bus-boys. These waitresses are arranged in three different sets. One set comes in at eight-thirty in the morning and works the entire day until five-thirty at night. The second set comes in about ten o'clock and gets through at four, then at eleven o'clock the last set arrives to help through the rush portion of the day and leaves at three o'clock in the afternoon. Many of these who work short hours have positions elsewhere.

"In the main dining-room there is an average of between twelve and fifteen hundred people fed each day and in the lunch room in the basement between two thousand and twenty-five hundred.

"Many people have formed the idea that this restaurant is only a mid-day affair, but it is not. When the doors open at eight-thirty patrons are served breakfast in the dining room, which continues up to eleven o'clock. Between eleven and three are the luncheon hours, and from three to five-thirty, afternoon tea.

"Every day during the afternoon tea session music is furnished and on Tuesdays and Fridays special vocalists are obtained to furnish entertainment. It may be interesting to the uninitiated to know that the seats for the afternoon tea are sold in advance just the same as in a theater and for fifty cents one can enjoy a fine musical entertainment with all the enjoyment of eating included.

"The 'no-tipping' system is another very noticeable point in this establishment. When this restaurant was first started the leads of the firm decided that they would establish a 'no tipping' system as an experiment and see if it could not be worked out to advantage to the public as well as to themselves, and although they are obliged to pay the waitresses double the salary obtained elsewhere they find they are able to please the public much better and also secure the services of a higher class of waitresses. The nice salaries paid them make them like their positions better than if they were paid half the amount and depended upon the rest for tips.

"Each day a special dish is made up and is taken through the dining-room on a huge rolling table operated by one of the bus-boys. This table is made on top in the shape of a huge service dish, underneath of which is an alcohol lamp to keep the food as warm as desired. A boy rolls this table through the dining-room and anyone wishing a portion of the specialty for the day is served from this huge table and then the boy goes on to the next one who may desire it. This is a very unique arrangement and attracts a great deal of favorable comment.

A custom which has been originated by Mrs. Warner and which is being carried out very successfully is the observing of holidays in some special manner. This was tried out as an experiment on the day before last Thanksgiving, when a special Thanksgiving menu was arranged. Special music for the occasion, consisting of old selections and home songs were played, which made a decided hit. Since the first trial this has been carried out at each holiday and each succeeding one seems to be more successful than the other. Mrs. Warner prepared an interesting program for Children's Week April 6 to 13 when she had special music for the children and a story teller and an especially prepared menu.

A slight cold in a child or a grown person holds possibilities of a grave nature. Croup may come on suddenly, bronchitis or pneumonia may develop, severe catarrhal troubles and consumption are possible results. Fole's Honey and Tar Compound nips a cold at the outset, cures croup quickly, checks a deep seated cough, and heals inflamed membranes. H. P. Dunn, druggist.—Adv. mwf

FACT

Local Evidence
Evidence that can be verified.
Fact is what we want.
Opinion is not enough.
Opinions differ.
Here's a Brainerd fact.
You can test it.
Charles Ellison, 512 S. Quince St., Brainerd, Minn., says: "My kidneys were disordered for several years and as time passed, my condition grew worse. About a year ago I was suddenly taken with such a severe pain in the small of my back that I had to stop work and go to bed. Medicine relieved me somewhat and I got out in a few weeks, but I still suffered severely. Someone finally advised me to try Doan's Kidney Pills and I procured a supply at H. P. Dunn's drug store. A few boxes restored me to good health and removed all symptoms of my complaint. I am confident that Doan's Kidney Pills will act just as satisfactorily in other cases of kidney trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.

MUSIC AND DRAMA

Empress

At the Empress the feature film is "Brother Bill." The following is the plot of the scenes: Bill's younger brother, Jim, runs off to town and falls in love with a girl, who makes him believe he is a wonderful boy. He gets into trouble with another fellow, who objects to Jim's attentions to the girl. Bill comes to town from his mountain home, protects Jim, seizes the girl, jumps on his horse and carries her away to the mountains. He makes her promise she will let Jim alone and then sets her free. She falls in love with Bill, because of his love for his brother, and before she leaves him, she promises to become his wife. The wild ride of Bill with the girl and the pursuit of the posse, trying to overtake him, make this drama of mountain life a very powerful film picture.

A man living at Auburn, New York had a severe attack of kidney and bladder trouble. Being a working man, not wanting to lose time, he cured himself completely by using Fole's Kidney Pills. A year later he says: "It is a pleasure to report that the cure was permanent." His name is J. A. Farmer. H. P. Dunn, druggist.—Adv. mwf

Throughbred Chickens

Let Us Start You in the Chicken Business

ROSE COMB BLACK MINORCAS

Layers of the largest white eggs. Our stock is from the celebrated Edgemont poultry farm, the largest breeders of R. C. Black Minorcas in the world. Pure bred stock only, and from prize winning matings. We can spare only a few settings of eggs from these birds at \$3.00 for 15 as we want to hatch most of them ourselves.

Egg record for one year, 250

ROSE COMB RHODE ISLAND REDS

We have one pen of these beautiful and popular breed and they are the best we have ever seen. Almost as large as turkeys, and great winter layers. This breed won the 1st prize at the great International Egg Laying contest in Missouri in 1912, laying almost as many eggs in the winter months as in summer. We can spare a few settings at \$2 for 15.

Egg record for 1 year, 263

RINGLET-BARRED PLYMOUTH ROCKS

Line-bred and trap-nested for 20 years. This is the greatest laying strain in the U. S. The individual egg record for 1 year of this pen of hens is from 259 to 268 and we have never heard of their equal and don't believe they exist. You can have a setting for \$4 for 15.
